## **Family of woman killed in Troy shooting files wrongful death lawsuit**

### **Associated Press**

DETROIT -- The family of a receptionist shot and killed at an accounting firm's office filed a wrongful death lawsuit today against the man accused in the attack.

Madeline Kafoury's children filed the suit in Macomb County Circuit Court against Anthony LaCalamita III, who police say killed her with a shotgun and wounded two others at Gordon Advisors in Troy on April 9.

The suit does not specify damages.

Attorney Gerard Mantese, who is representing the Kafoury family, said he hoped to depose LaCalamita within the next month.

"The family wants to know how this could happen," Mantese said. "They want to understand the sequence of events, how it could be that this man could get a shotgun ... and kill their mom."

A message seeking comment was left for Jerome Fenton, LaCalamita's attorney.
